

### Offshore Containers (DNV standard)

Uniteam can offer a large scope of containers for Offshore purposes, tested and approved by DNV (Det Norske Veritas) 2.7.-1 standard.

We provide high quality products to highly competitive prices.

*Offshore containers are used by the Oil industry for transporting equipment, food, waste, etc. on supply ships to and from oil rigs.*

Our product range also includes workshop solutions and storage containers certified with EX-approved electrical installations, HVAC, gas-/fire detectors etc.

Uniteam has extensive experience in delivering custom solutions to our clients in the Offshore industry, as well as some standard products such as:

- 10' Offshore container
- 20' Offshore transport container
- Mini Mud Drum basket Basket
