

Offshore Modules

offshore solutions

For 20 years, Uniteam has provided modules and containerized solutions for the oil and gas industry worldwide. Our modules are operational in the low temperatures in the Antarctica to the heat of the desert in Middle-East/Africa.

Quality in every aspect

All offshore modules are built according to DNV 2.7-1 or 2.7-2. The Uniteam accommodation containers are standard A60 Zone 1 fire rated. Our container modules are perfectly modular and have flexible internal layouts to suit client requirements.

Accommodation Module

Control room module

Workshop module

Some Uniteam solutions:
