

## Sanitary Shelter

Uniteam provides our customers with ready made sanitary units for all purposes. We have extensive experience in using containers as ablution and sanitary modules.

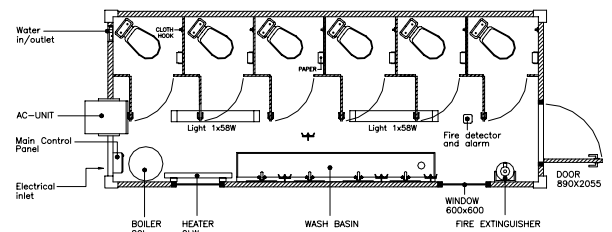

### Technical Specification:

| Internal Length: | Internal weight | Internal height | Door opening | Gross: | Net: | Tare: |
|------------------|-----------------|-----------------|--------------|--------|------|-------|
| 5577             | 2200            | 2040            | 900          | 10000  | 6000 | 4000  |

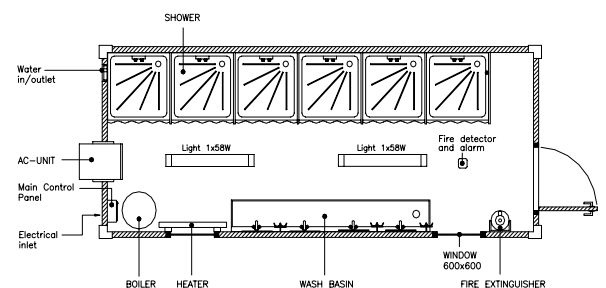

The unit is based on a 20' ISO container, fitted with heating and an air conditioning unit (ACU). All waste can either be transported out through the piping system, or we can integrate a black waste pillow tank for increased mobility.

We have solutions with integrated hook lift system if needed. All containers are insulated to create a warm and comfortable environment for the users. Floor heating is a recommended solution to increase comfort.

The sanitary containers are delivered complete with toilets, showers, sinks, urinal, water heaters etc.
